PROEFLOKAAL DE MOLEN

Our other taproom is located in Amsterdam-Oost, underneath Windmill De Gooyer. This windmill has been around for a century or four. It is a well-kept secret that we don't really brew inside this old giant. Does a great job as our landmark though as it's the tallest wooden windmill of the Netherlands We've been brewing here since 1985. It was a public bathhouse before and some of our regulars used to shower here as a kid. Steam machine, tiles, pipes and drains all came in very handy when we turned it into a brewery. Some of the old soap baskets still remain. Have a peek? We conduct tours during the weekend to tell you all about the bathhouse, our beer and brewery.
